

The Henslow School BTEC Unit Planning Overview

*This is a summary for parents, carers and students which shows the likely areas of study.
It will be adapted by the teacher to suit groups and individuals.*

Subject/Qualification	BTEC Vocational Unit: Building a simple wall
Year group/Class information	Year 10-11
Approx Number of lessons per week	2

Unit Con6. Building a Simple Wall.	Knowledge and Skills/Assignment content
Underpinning Knowledge	This unit will help you start developing the skills needed to build a simple wall using bricks. You will find out about the tools and materials that are used in wall building. You will learn about the methods that make sure the wall is strong enough to remain standing and you will develop your skills in pointing so that your wall is neat and attractive. You will find out about calculating measurements, angles and quantities of materials, which will develop your problem-solving skills. The transferable and sector skills you develop in this unit can enable you to progress to further learning.
Assignment	One single assignment covering two aspects: A. Prepare the tools and materials to build a simple wall. B. Build a simple wall and solve problems. The student must compile an assignment log to provide evidence for the above.
